HAY RACKS

(AVAILABLE IN BOTH GATE HANGING AND FACE FIXING)
(FULLY GALVANISED AFTER MANUFACTURE.)

GATE HANGING HAY RACKS ARE MADE 410mm HIGH x 430mm DEEP, AVAILABLE IN WIDTHS OF 2FT ,4FT AND 8FT.

THEY ARE MADE USING 2"X 2" or 3" X 3" MESH INFILLS AND SOLID STEEL ENDS.

THE BRACKETS CAN BE MADE TO SUIT EITHER A FIELD GATE (50mm) OR FEEDING BARRIOR (75mm)..

WE CAN ALSO FACILITATE THE NEED FOR FACE FIXING THE HAY RACK TO A WALL.

PLEASE SPECIFY THE TYPE REQUIRED WHEN ORDERING AS THE FIELD GATE TYPE IS CLASSED AS STANDARD.

FREESTANDING HAY RACK

The freestanding hay rack is 8ft long and is constructed using 2" x 2" or 3" x 3" mesh infill with reinforced edges, 50mm x 25mm box frame and 16th plate endcaps and optional trough. The lid is hinged and held in the open position using a galvanised chain. All items fully galvanised after manufacture.

This freestanding hay rack can be bought with or without the following items:

Without Lid - for horses
Trough - for sheep

CATTLE FEEDING TROUGHS

DOUBLE AND SINGLE CATTLE TROUGHS ARE MANUFACTURED WITH 40MM BOX SECTION FRAME COMPLETE WITH A GALVANISED SHEET INSERT. THEY STAND AT 730MM HIGH AND ARE AVAILABLE 8FT LONG, FINISHED WITH EITHER RED OXIDE PAINTED OR HOT DIPPED GALVANISED FRAMED.

ROUND BALE CRADLE FEEDER

The newest addition to our farming range is the round bale cradle feeder. This feeder is universal, meaning it can be used for cattle, sheep or horses. The frame is made using 50mm x 25mm box iron with 32mm round bar slates. Fully galvanised after manufacture and finished off with box iron end caps. It is delivered in a flat pack format, with five parts that simply bolt together using the 8 bolts provided; meaning it only takes 10 minutes to construct.

The dimensions are:	Width	1530mm
	Depth	1580mm
	Overall Height	1220mm
	End Panel Height	955mm
