

HAY RACKS

(AVAILABLE IN BOTH GATE HANGING AND FACE FIXING)
(FULLY GALVANISED AFTER MANUFACTURE.)

GATE HANGING HAY RACKS ARE MADE 410mm HIGH x 430mm DEEP, AVAILABLE IN WIDTHS OF 2FT ,4FT AND 8FT.

THEY ARE MADE USING 2"X 2" or 3" X 3" MESH INFILLS AND SOLID STEEL ENDS.

THE BRACKETS CAN BE MADE TO SUIT EITHER A FIELD GATE (50mm) OR FEEDING BARRIOR (75mm)..

WE CAN ALSO FACILITATE THE NEED FOR FACE FIXING THE HAY RACK TO A WALL.

PLEASE SPECIFY THE TYPE REQUIRED WHEN ORDERING AS THE FIELD GATE TYPE IS CLASSED AS STANDARD.

FREESTANDING HAY RACK

The freestanding hay rack is 8ft long and is constructed using 2" x 2" or 3" x 3" mesh infill with reinforced edges, 50mm x 25mm box frame and 16th plate endcaps and optional trough. The lid is hinged and held in the open position using a galvanised chain. All items fully galvanised after manufacture.

This freestanding hay rack can be bought with or with the following items:

Without Lid - for horses
Trough - for sheep
